ask your beauty expert for single microneedling and peeling treatments

**How to choose your first Dermalogica ProSkin treatment?**  
Every ProSkin treatment is divided into 10-minute modules. Each module contains a specific skin treatment. After we analyze your skin, we personalize the modules to match your skin needs and wishes. To try-out we recommend ProSkin 45. For the best overall experience we recommend ProSkin 60 which contains all steps. When in doubt call us.

WAXING

Feel smooth. Remove the hairs you prefer not to show with (a combination of) our waxing possibilities.
