ask your beauty expert for single microneedling and peeling treatments

How to choose your first Dermalogica ProSkin treatment?

Every ProSkin treatment is divided into 10-minute modules. Each module contains a specific skin treatment. After we analyze your skin, we personalize the modules to match your skin needs and wishes. To try-out we recommend ProSkin 45. For the best overall experience we recommend ProSkin 60 which contains all steps. When in doubt call us.

EYES

Extra pretty is within reach: color your brows or lashes or get expert advice on the perfect makeup.
